

## 1. Corporate Overview

**All Supply Global** is a premier, South African-born commodities trading and supply chain solutions company with a rapidly expanding footprint across Africa and key international markets. Founded on the principle of dependable service, we have evolved into a dynamic conglomerate offering an integrated suite of services from resource development to end-user delivery.

Our mission is to bridge global resources with local demand by providing reliable, efficient, and strategic supply chain solutions. Leveraging our deep industry expertise and agile operational model, we ensure our clients receive the right materials, at the right time, and at the right cost.

Our Promise: *All Supply. All Solutions.*

## 2. Our Heritage & Ownership

**All Supply Global** is powered by the strategic vision and financial strength of its major shareholders, **Ishango Capital Partners** and **NLG Investments**. This ownership structure provides a solid foundation of stability and access to significant capital.

Our leadership team brings a blended 60 years of vast experience across commodity trading, resource development, mining, property development, and capital raising. This unique blend of expertise allows us to understand the entire value chain, delivering insights and value that go beyond simple transaction-based trading.

# Global Reach

## & Operational Expertise

### 3. Global Reach & Operational Expertise

We operate a network of offices and subsidiaries in strategic global hubs, allowing us to manage complex logistics and maintain close relationships with both suppliers and clients.

**South Africa (Head Office):**

Chrome, Sulphuric Acid, Iron Ore, Gold, Coal, and comprehensive mine production planning.

**Zambia & DRC:**

Specialized merchant trading in Copper and Rare Earth Minerals.

**Dubai, UAE:**

Crude Oil, Lubricants, and Jet Fuel.

**United States:**

International trade facilitation and market access.

### 4. Core Business Activities & Solutions

We provide end-to-end solutions across four key verticals:

**1. Commodity Trading & Sourcing**

We have proven experience in moving a diverse range of bulk commodities and specialized materials, including:

**Metals & Minerals:**

Copper Cathodes, Iron Ore, Chrome, Gold, Rare Earth Minerals.

**Chemicals & Acids:**

Sulphuric Acid, Caustic Soda, and other industrial chemicals.

**Energy Products:**

Coal, Crude Oil, Lubricants, Jet Fuel.

# Mining

## & Resource Development

### 2. Mining & Resource Development

We are more than traders; we are partners in resource development. Our services include:

- Procurement and supply of essential mining materials, machinery parts, and consumables.
- Expertise in mine production planning and management.
- Supporting the entire mining life cycle from development to operation.

### 3. Logistics & Supply Chain Management

We manage the complexities of international and cross-border logistics so our clients don't have to. Our services encompass:

- End-to-end transportation and freight management.
- Customs brokerage and clearance.
- Handling and commission services.

### 4. Strategic Capital & Investments

Through our group structure, we facilitate capital raising and strategic investments to fund development projects and growth within the natural resources sector.

### 5. Our Values:

The Foundation of Our Service

#### **Integrity:**

We build trust through transparent pricing, honest communication, and ethical dealings.

#### **Reliability:**

Our agile, asset-light model prioritizes on-time delivery and a responsive, dependable supply chain.

#### **Expertise:**

Our decades of combined experience allow us to navigate market complexities and provide strategic advice, not just products.
